The committee held its **second public forum** via webinar format. Members of the Committee presented concepts currently under consideration and factors relating to those concepts. The topics presented included the following bulleted items, and was followed by an open discussion to gather feedback on the suitability and feasibility of the concepts.

- Why the Stone Building is important
- Building use concepts from the April forum, as well as online submissions
- Criteria used to assess use concepts
- SBFRC assessment of use concepts
- Preliminary funding scenarios
