TOWN OF LEXINGTON — BOARD OF PUBLIC WORKS

SEWER DIVISION

Sketch of Service Here

A large grid of graph paper, consisting of approximately 25 columns and 25 rows of small squares. A vertical line is drawn near the right edge of the grid, approximately one-third of the way from the right side. This line divides the grid into two sections: a larger section on the left and a narrower section on the right. The grid is intended for sketching the location of sewer service.
