Charge to - Sewer Services, Account #5750

Joseph F. Burke Supt. of Public Works June 28, 1967

Mrs. Douglas O'Connall 45 Normandy Road Laxington, Massachusetts 02173

Dear Mrs. O'Connell:

Thank you for your phone call of June 26, 1967.

Since the sewer which was installed in Normandy Road is too high to service your primbing, a service connection was installed on Woodcliffe Road.

This is to certify that the Town will pay the difference in cost between the cost of an actual sewer service from the street line on Woodcliffe Road to your house and the estimated cost of a sewer service from the street line on Normandy Road to your house.

The difference will be computed by multiplying the difference in length of the two distances by the average cost per foot of the actual sewer service.

Very truly yours,

John J. Carroll Supt. of Public Works & Town Engineer

JJC/fgm
