

# **The Comprehensive Cultural Resources Survey**

**of the**

**Lexington Historical Commission**

**Revised January 2022**

This is the Master Index to all properties included on Lexington's Comprehensive Cultural Resources Survey (the "Inventory").

The Master Index contains an alphabetical listing of all properties included on the Inventory, either by Area or street name. Many of the buildings are documented on individual building forms ("B" Forms) that describe their historical and/or architectural significance; others are included as buildings that contribute to the historical and/or architectural significance of a group of buildings described on an Area form ("A Forms"). These latter buildings are individually listed on District Data Sheets included with the appropriate Area Form. In addition, many historic structures and objects are also included on the Inventory with descriptive information.

Copies of all these documents can be found at the Historical Commission's website

CUMULATIVE INDEX

**FOR THE**  
**COMPREHENSIVE CULTURAL RESOURCES SURVEY**  
**OF LEXINGTON**  
**January, 2022**

This index is for the properties that currently comprise the Comprehensive Cultural Resources Survey of Lexington, a survey of architecturally and historically significant properties in the town. The survey is maintained by the **Lexington Historical Commission** under the direction of the Massachusetts Historical Commission (MHC). Copies of the survey are on line at <https://www.lexingtonma.gov/historical-commission>. Survey forms contain information about the architectural and historical significance of individual properties and historic areas in Lexington.

In this index, individual properties are listed alphabetically by street. The number(s) following the street address is the MHC building form number (cited as “MHC # . . .” in the discussion on many forms). The letter(s) following the building form number designates the historical or architectural area, if any, in which the property is located. Area forms, listed on the next page, give information about the architectural and historical significance of an area as a whole and should be used in conjunction with building forms. There are not individual building forms for some properties, but these properties are included in the survey because they are in an architecturally and/or historically significant area and are included in District Data Sheets with the area form.

Areas A through E are the historic districts in Lexington. If a property’s MHC number is followed by the letter A, B, C, D or E in parentheses, that property is in an historic district. Questions about properties in the historic districts should be directed to the **Historic Districts Commission** at the Town Office Building.

Properties outside the historic districts are protected by the Demolition Delay By-Law of the Town of Lexington (Chapter 19, Article I, Sections 1–5). Questions about these properties should be directed to the Building Inspector in the Town Office Building or to the **Lexington Historical Commission**, 781–698-4525.
